17/04/09

A newly launched volunteer organisation that works alongside Emergency Planning Officers and provides logistical support to the emergency services, local authorities and GPs in the event of severe weather conditions and emergency situations, is considering switching its vehicle fleet to Maxxis 4x4 tyres.

4x4 Response Wales is currently trialing the Maxxis Bravo all-terrain tyre after Grouptyre, the country's leading independent tyre wholesaler and exclusive distributor of Maxxis 4x4 tyres in the UK, agreed to supply a test set of tyres for evaluation purposes

Westlake - Delivering Affordable Tyres

17/04/09

The Westlake brand has been successfully marketed in the UK and Europe for more than 7 years by Eskay tyres and has an ever increasing range of PCR, UHP, 4X4 and LT sizes that now has 143 sizes. Noise certification S marking is now complete and is on all tyres produced since 1st March 2009. The excellent strength in depth of the Westlake range has recently been enhanced by the introduction of a new SUV/4X4 pattern SU307, which is available in 25 sizes. Westlake also offers a high quality comprehensive range of Van / LT tyres in the latest SC301 pattern made on a new production line and engineered with latest innovative technology.

Two More to Trust from Infinity

17/04/09

Infinity continue to grow their UK and European operations by expanding their distributor network, investing in key trade exhibitions and developing and launching exciting, new products. The focal point of Infinity's 144 square metre stand at Autopromotec 2009 will be two new products.

The new INF 059 winter van tyre range will be available from Autumn 2009 and will feature 5 products ranging in size from 14 to 16 inches. It will complement the existing Infinity winter tyre range and will feature a distinctive asymmetric tread pattern and a proven winter rubber compound.

The new INF 059 offers improved braking performance, extensive tread wear resistance, and low noise ride comfort.

PCL New Catalogue

17/04/09

Take a look at the PCL latest Product Catalogue and you'll find that sometimes you CAN judge a book by its cover. Created in line with the company's clean new corporate branding, the catalogue is designed to make product selection and ordering simple for distributors.
